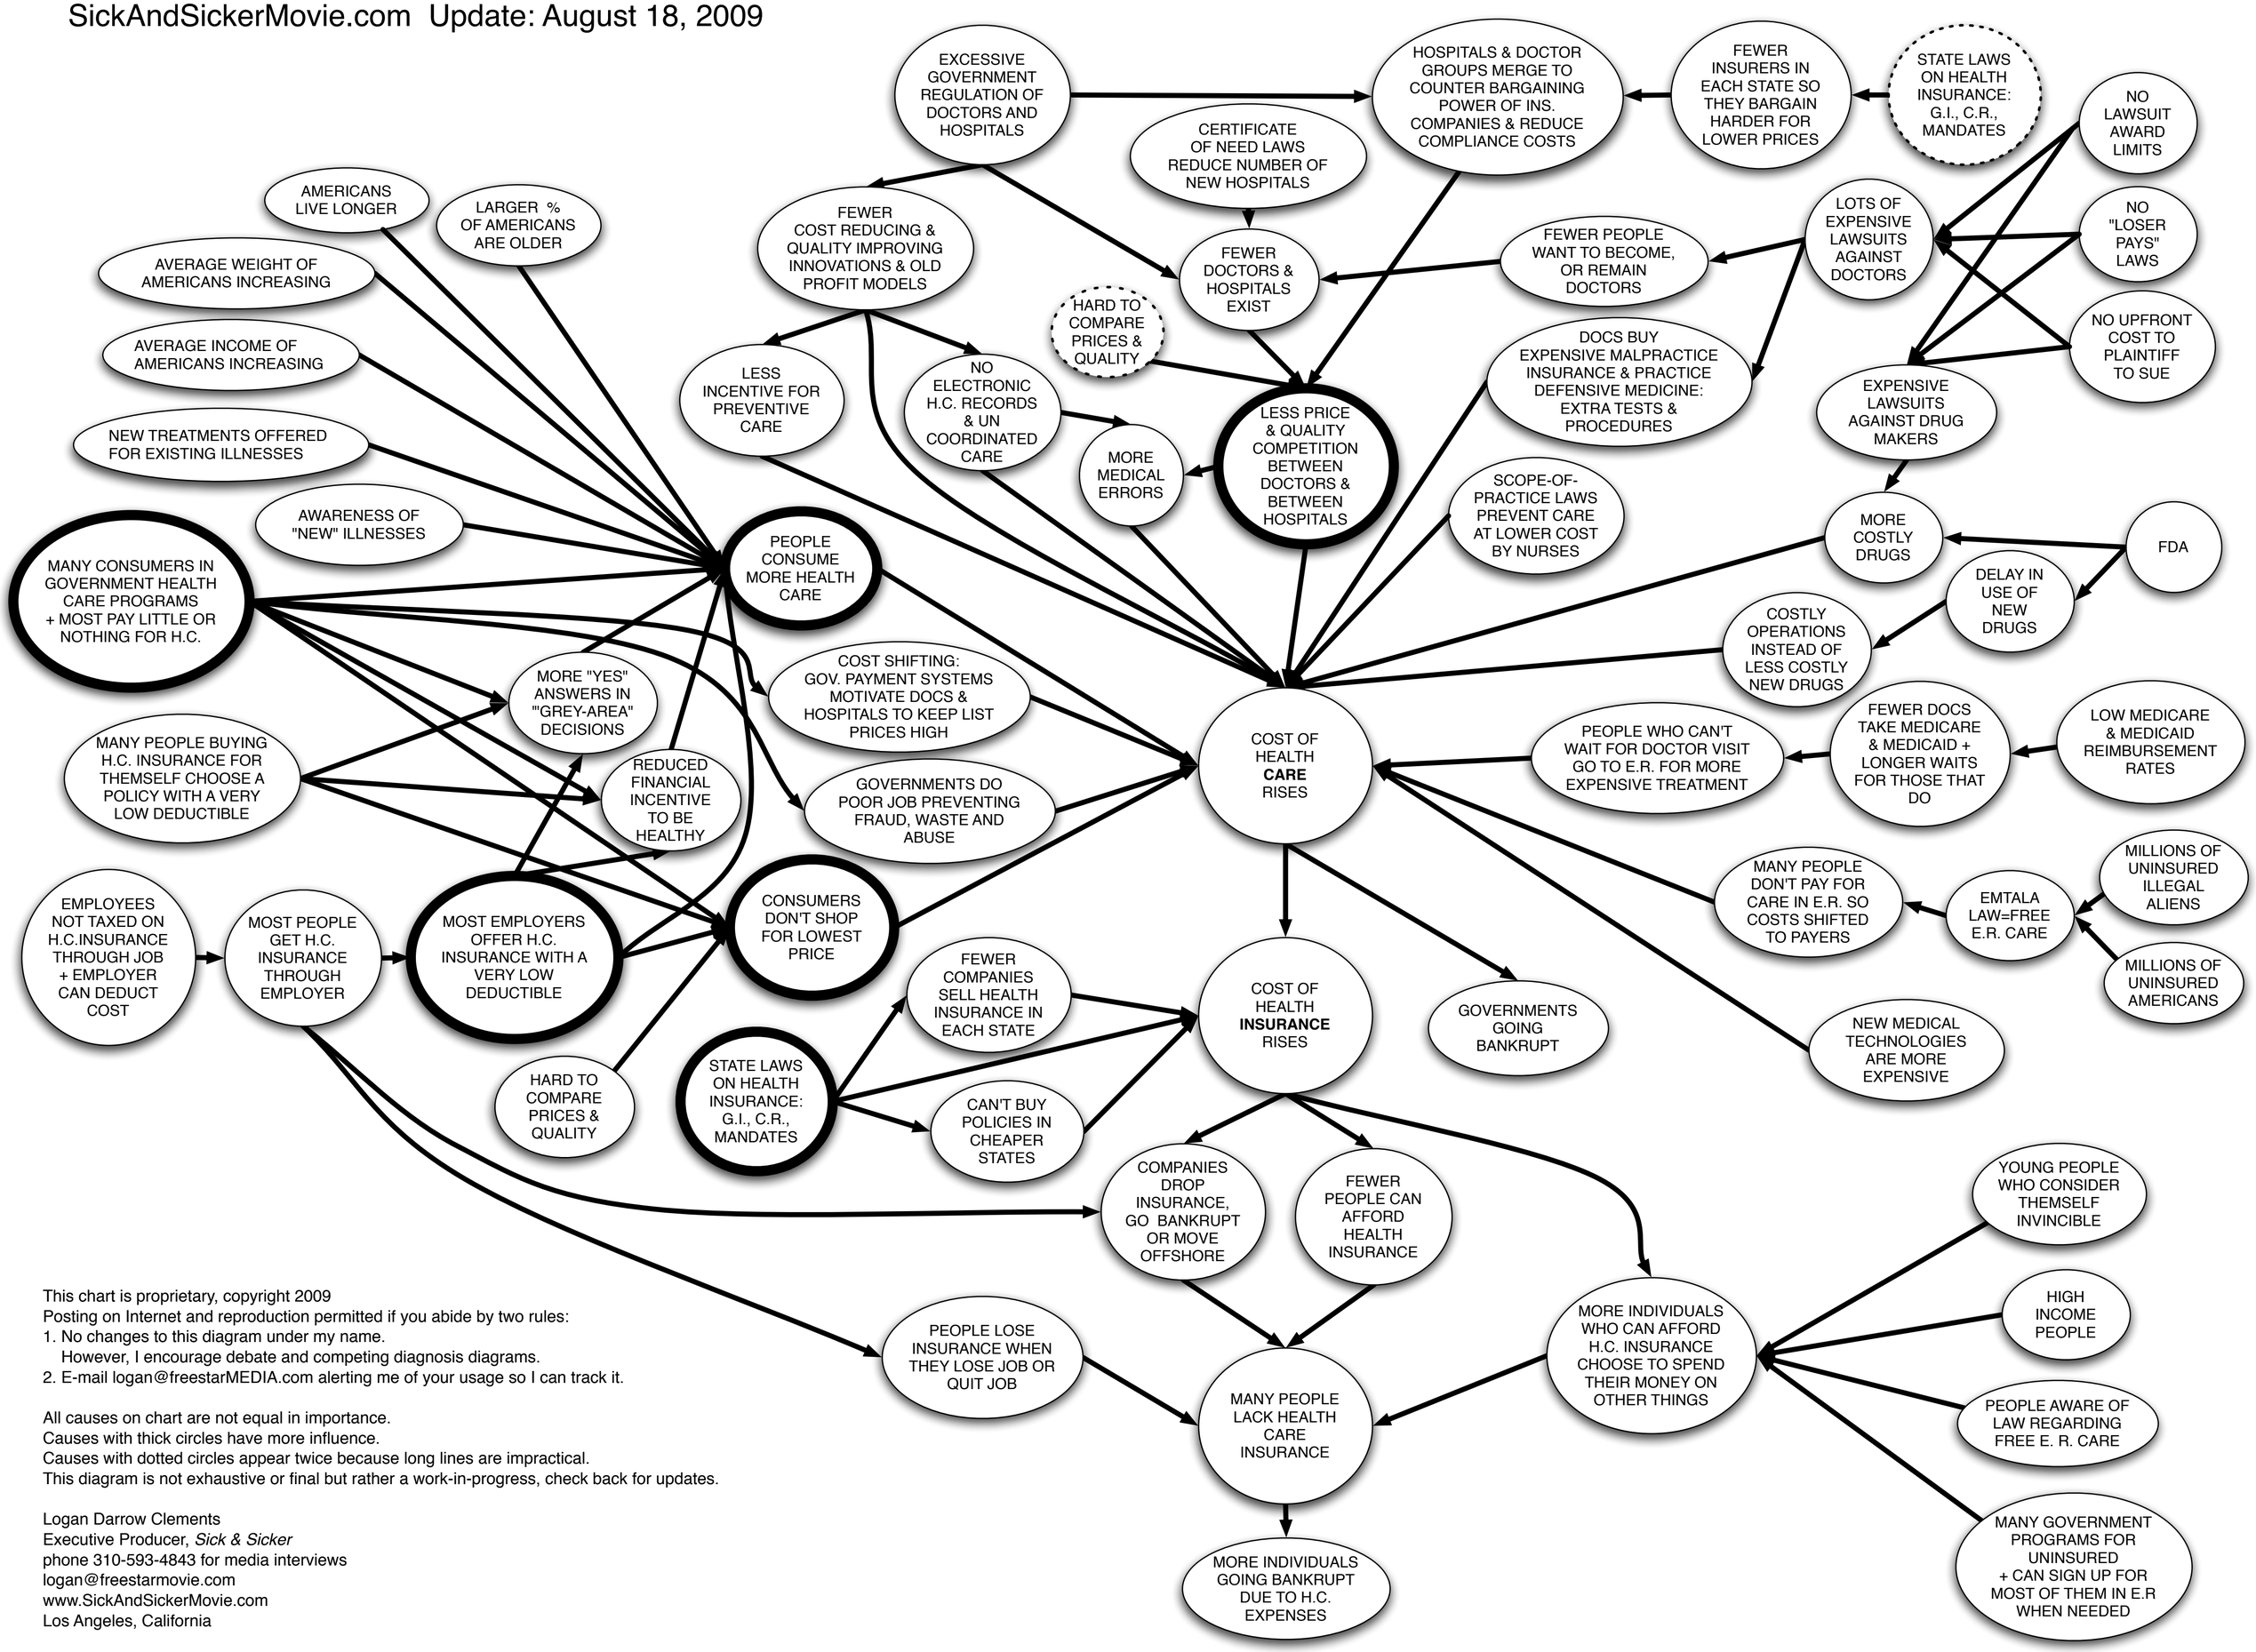
LOGAN'S DIAGNOSIS

"CAUSES OF HEALTH CARE AND HEALTH INSURANCE INFLATION IN EXCESS OF GENERAL INFLATION"

by producer of the movie *Sick & Sicker*, Logan Darrow Clements, M.B.A. Finance, M.A. Economics, University of Rochester
SickAndSickerMovie.com Update: August 18, 2009



This chart is proprietary, copyright 2009
Posting on Internet and reproduction permitted if you abide by two rules:
1. No changes to this diagram under my name.
   However, I encourage debate and competing diagnosis diagrams.
2. E-mail logan@freestarMEDIA.com alerting me of your usage so I can track it.

All causes on chart are not equal in importance.
Causes with thick circles have more influence.
Causes with dotted circles appear twice because long lines are impractical.
This diagram is not exhaustive or final but rather a work-in-progress, check back for updates.
